

# Parents, children, be careful!

Take care on escalators and moving walks!

- Step on and off carefully
- Hold the handrail and the hand of any young children with you
- Always stand and face forward
- Never sit down
- Keep hands, feet and clothing clear of moving parts
- Always wear shoes – but be careful with rubber footwear
- Take care with loose clothing and shoe laces
- If you have a push chair, use the lift
- Do not play on or with escalators and moving walks

*Our thanks to LEIA for the original idea*
