Training with impact

- Practical focus: We teach what is truly required in daily technical practice.
- Built on partnership and co-creation
- Driven by what industry actually needs
- Common purpose: safe and skilled professionals
- ROVC and lift industry

ROVC

History Dutch lift training

1990

LIFT-SPECIFIC TRAINING

- Fixed sequence.
- Existing experience/knowledge does not count.
- Only lift-related content.

CLASSROOM LESSONS

SELF-STUDY

VIRTUALLY NO PRACTICAL TRAINING

2015

TRAINING WITH CERTIFICATES VALID OUTSIDE THE LIFT INDUSTRY

+ Addition of lift-specific training.

CLASSROOM LESSONS

CASES

MULTIPLE PRACTICAL TRAINING DAYS

2026

TRAINING WITH CERTIFICATES VALID IN EUROPE AND EQF-CERTIFIED

→ This enables **new entrants** from other sectors.

CLASSROOM LESSONS

INTERACTIVE VIDEOS AND ANIMATIONS

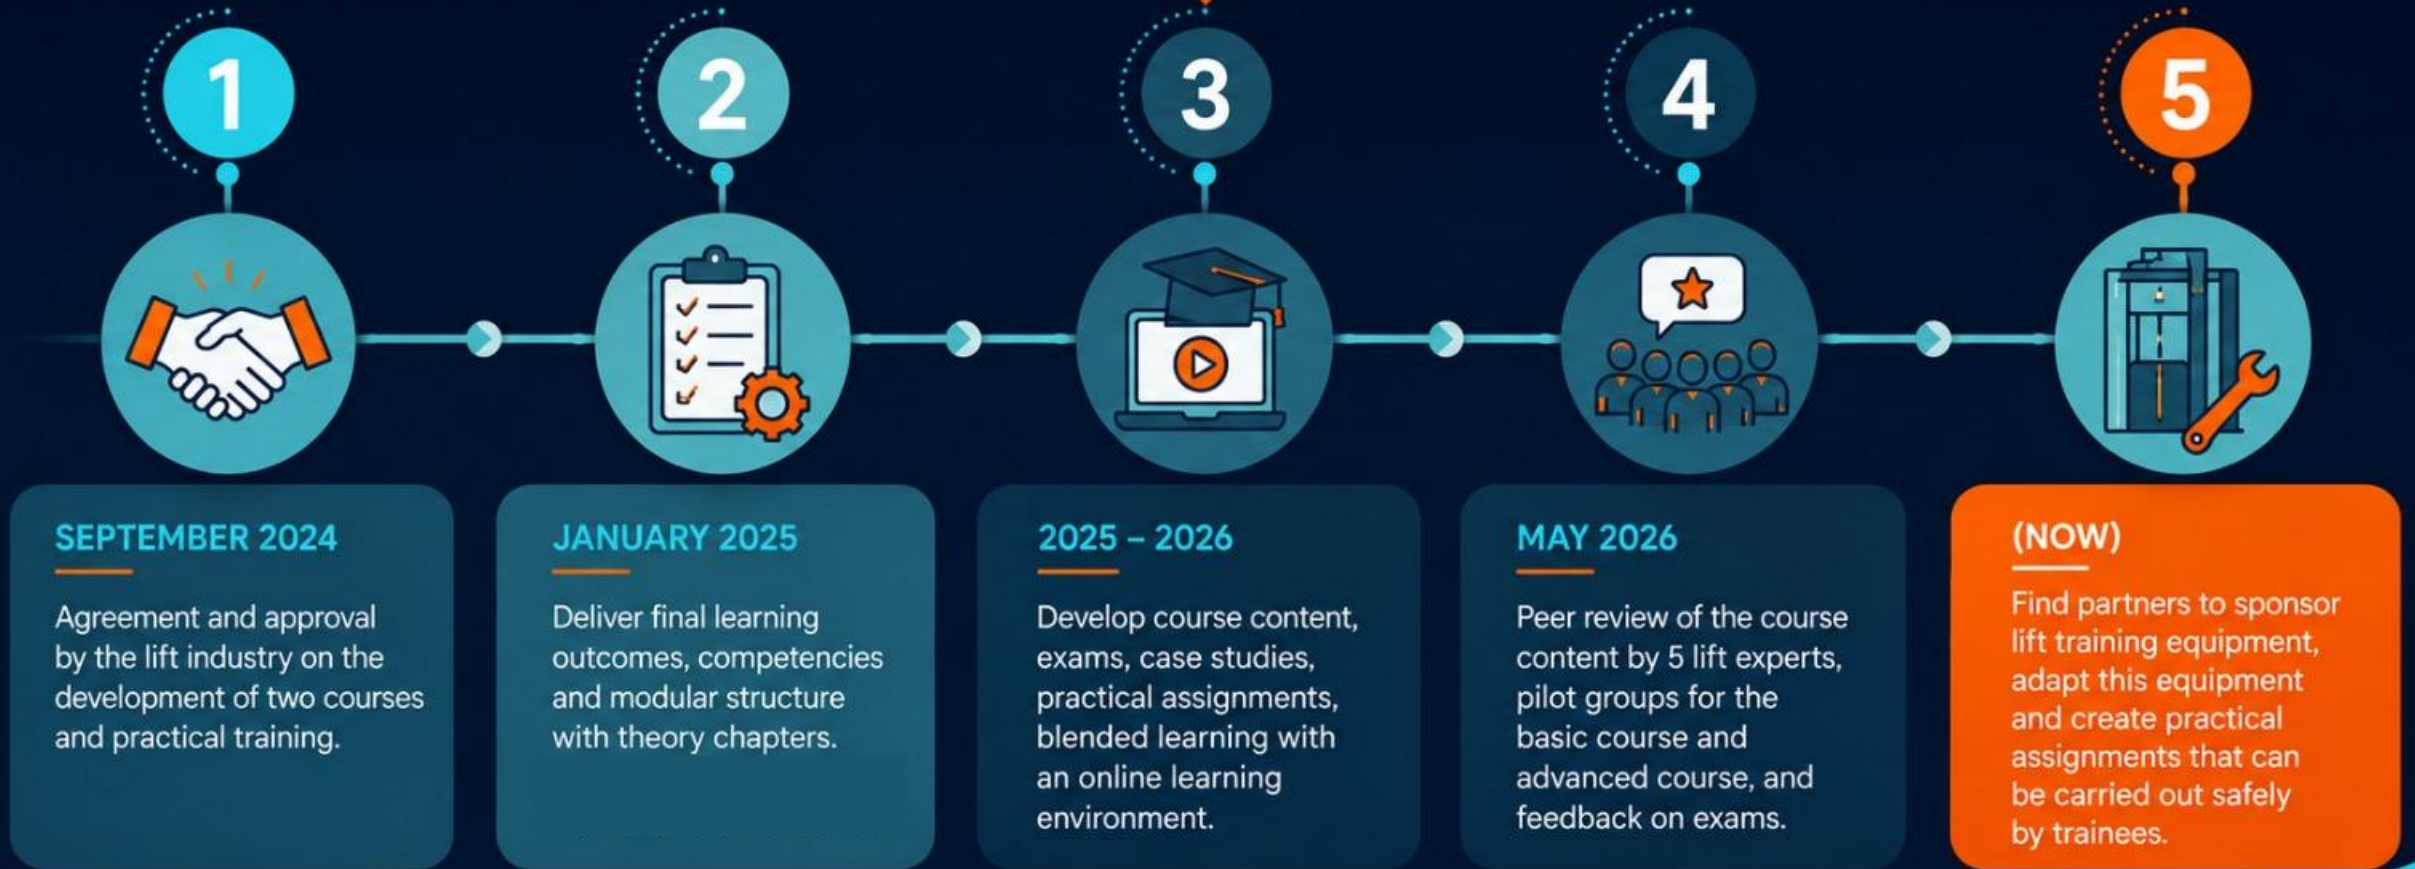

CASES

A QUARTER OF THE TRAINING DAYS PRACTICAL

Developing lift trainings

Development of two courses and practical training for the lift industry

LIFT COURSES

PRACTICAL. CERTIFIED. FUTURE-READY.

LIFTTECHNICS – BASIC

2 days.

For new entrants, helpdesk representative, support staff and starting lift technicians.

Certificate

LIFTTECHNICS – IMPROVE THEIR SKILLS

7 days.

For upcoming service engineers, modernization technicians and new lift installers who want to improve their skills.

Certificate

EXPERIENCED TRAINERS

Practical experts from the lift industry.

QUALITY & CERTIFICATION

Recognized diplomas that prove your professional competence.

PRACTICAL & APPLICABLE

Directly applicable knowledge for more safety and craftsmanship.

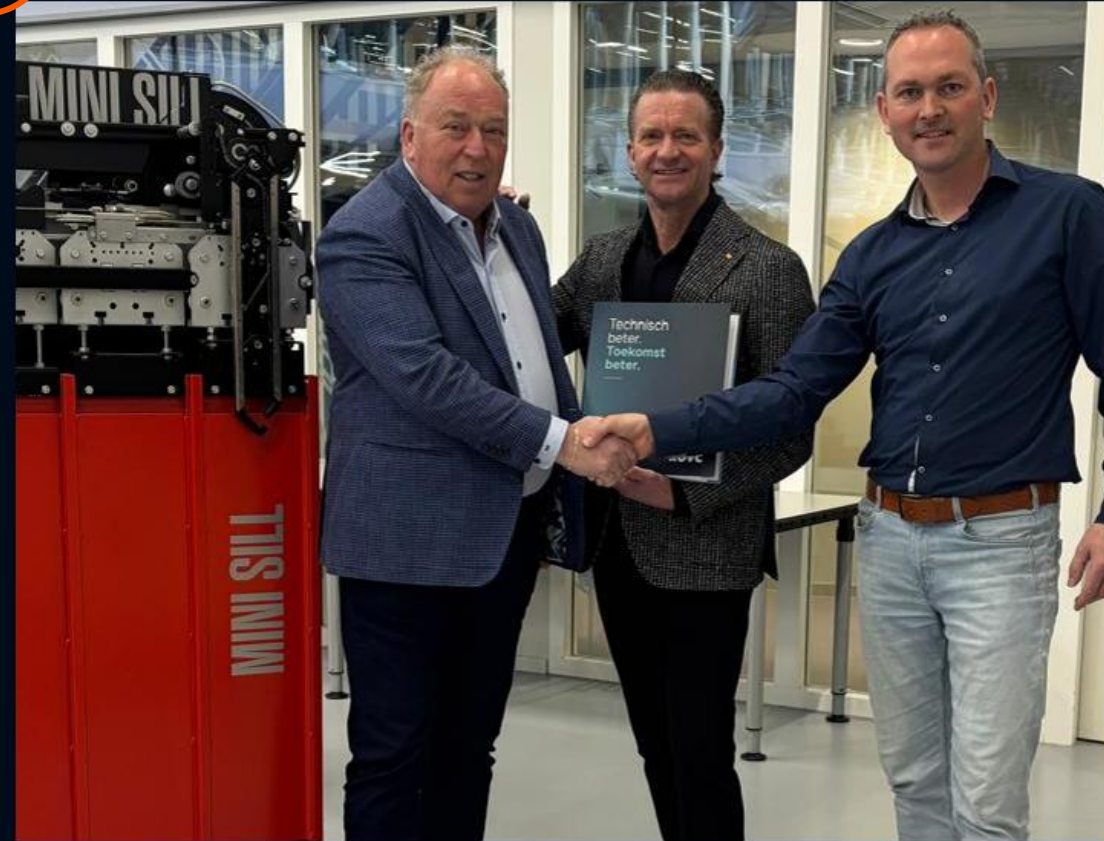

GROW TOGETHER

Learn from and with colleagues in practice.

Release of the new course

LESSONS LEARNED

- Developing courses and educational programs is very time-consuming

- Technical experts commit, but face day-to-day business as usual

- Developing video, images, animations and cases is required but time consuming

- Developing in collaboration with industry increases buy-in industry

- Lift industry has common techniques with other industries

OPPORTUNITIES

Practical installations are required for new entrants into lift industry:

- Way of learning “Gen Z”
- Enabling career switching to lift industry from other industries

Certification of lift-technicians:

- Safety requirements/compliance
- Improvement of skills

Working together ROVC and industry improved:

- Learning from other industries
- Boost to new entrants for training

THANK YOU

to the

ELA General Assembly & Conference 2026

27 & 28 May 2026

Rotterdam

*“The future of
technology depends
on the people we
educate today.”*
